

## PGA Junior Golf - Community Outreach

**Invest in your community, invest in their future!**

*Our goal is to have PGA Professionals out in their communities to make an impact on the lives of our juniors. We must grow junior golf both at our facilities and in our communities. We cannot wait for new junior golfers to come to us, we must take the initiative and go after them!*

***One hour of your time could make a difference.***

### Outside Opportunities

After School Golf Program  
Boys & Girls Clubs  
First Tee  
YMCA  
Golf in Parks

### Facility Opportunities

Junior Clinics/Lessons  
Family Golf Programs  
Sports Camps  
New Members

### PGA Programs

PGA Junior League  
PGA Sports Academy  
Golf 2.0  
Drive, Chip, & Putt

### School Golf Program

Start by volunteering for P.E. class at a local elementary school. Toss tennis balls into baskets, putt through cones, use mats for full swing, etc. After you have offered free P.E. classes, offer a multi week after school program. This will promote you and your facility as leaders for juniors in the your community.

### Boys & Girls - PGA

The PGA of America have already partnered with the Boys and Girls Club to pilot the PGA Medalist Program. Visit a local Boys and Girls Club to see how you may assist in teaching golf to our area youth. You may introduce golf to someone who would normally never have an opportunity.

### Golf in Parks

Are you at a facility with a small range or at a private facility who can not bring in outside juniors to teach? Go to a local park or recreational center to conduct golf instruction.

***We understand that as PGA Professionals your time is limited, however we would like for our Professionals to donate an hour or two this year to junior golf in your local community. This will make a major impact on the lives of our youth, and a significant impact on golf.***
